Dear colleagues and members,

Our first newsletter in the new year contains a lot of information about upcoming and past events. In particular, you will find below (and in particular on our website) the call for submissions for the Experimental Finance 2017, to be held June 14-16 in Nice, France. At the same location and just prior to the conference (June 11-13), we are organizing the first Experimental Finance summer school. Younger members are encouraged to seize this excellent opportunity to learn about the methodology of experimental finance.

Finally, we are happy that Christoph Merkle, one of the organizers of last year's conference, took the initiative of publishing a report on the conference in Credit and Capital Markets.

Have a happy and successful year 2017!
Best regards,

Stefan Palan, Utz Weitzel and Stefan Zeisberger

Call for papers for the EF 2017 (Nice, France)

The Université Côte d’Azur, CNRS GREDEG, and the SEF would like to invite you to the Experimental Finance conference held June 14-16, 2017, at the School of Economics and Management, Université Nice Sophia Antipolis (France). The conference also serves as the 8th annual meeting of the Society for Experimental Finance.

The keynote talks are given by:

- David Hirshleifer (University of California, Irvine)
- Matthias Sutter (University of Cologne and University of Innsbruck)

For details see our conference website.

Call for registrations for the EF summer school 2017

The Université Côte d’Azur, CNRS GREDEG, and the SEF would like to invite you to the Experimental Finance Summer School held June 11-13, 2017, at the School of Economics and Management, Université Nice Sophia Antipolis (France). The goal of this summer school is to support PhD-students and PostDocs in their first steps in this field.

The Experimental Finance Summer School is run the days before the EF 2017, at the same venue. This Summer School aims particularly for people from the following target groups:

- (Young) scholars from finance (and economics) departments that do not benefit from a research group at their University, but are interested in pursuing research in Experimental Finance.
- Scholars from finance and economics departments that are embedded in an experimental group but want to improve their experimental skills (e.g., software) and get an overview over the main fields in a systematic way.

For details see our summer school website.

Report of the EF 2016 published

Christoph Merkle, one of the local organizers of the EF 2016 in Mannheim, recently published a report on the conference.

Online forum for announcements and job postings
The online forum on the SEF website is a great resource for general announcements, job postings and discussions of relevance to experimental finance researchers. All members are free to post their announcements or start discussions there (much as the the ESA list for topics from experimental economics in general).

Please be sure to subscribe to the forum so you get an email whenever new information is posted. Since we aim to limit the number of newsletters we publish each year, the most up-to-date information on conferences and jobs is available in the forum.

Table of contents of JBEF Vol. 12 (12/2016)

The latest volume of the Journal of Behavioral and Experimental Finance features the following papers:

- Hoffmann, A. O., Post, T. How does investor confidence lead to trading? Linking investor return experiences, confidence, and investment beliefs.
- Hopland, A. O., Matsen, E., Strøm, B. Income and choice under risk.
- Kouaib, A., Jarboui, A. Real earnings management in innovative firms: Does CEO profile make a difference?
- Murphy, R. O., Andraszewicz, S., Knaus, S. D. Real options in the laboratory: An experimental study of sequential investment decisions.
- Pak, T.-Y., Chatterjee, S. Aging, overconfidence, and portfolio choice.
- Powell, O., Shestakova, N. Experimental asset markets: A survey of recent developments.
- Warsame, M. H., Ireri, E. M. Does the theory of planned behaviour (TPB) matter in Sukuk investment decisions?

Find the articles here.

Annual meeting French Economic Association

The annual meeting of the Frensch Economic Association will be held at the same location (Nice, France) and immediately following the EF 2017 and the EF summer school 2017, i.e., June 19 through 21, 2017. Please find all the information about the conference here.

Call for information about EF paper publications
The SEF website contains a list of papers which were presented at an Experimental Finance conference and have since been published by a journal. Please be sure to let us know when your own paper was published so we can include it on the website. Simply send us a short mail containing the citation and the year of presentation at an EF conference to office@experimentalfinance.org. We believe that presenting such a list on our website not only helps document the scientific heft of the society, but also increases the visibility of your work.
